FCC Communications Commission  
Dear FCC Communications Commission,  
Subject: Indiana Do Not Call List

This comment is designed to inform you of my opposition to any change being made to Indiana's "Do Not Call" list. Prior to this law coming into effect, I would receive numerous telemarketing calls several times each week. After this law took effect, the annoying and disrupting telemarketing calls have almost entirely stopped. I would strongly encourage the FCC Communications Commission to leave the Indiana law in place, and to not make any changes to the law which would allow telemarketing calls to be made to my home.

Respectfully yours,  
Brittany Hodges
